April 20, 2022

To Whom It May Concern:

It is with pleasure that I write this letter of recommendation for Abigail Hager. Miss Hager served as a student teacher during the spring semester of 2022. She also performed the role of a substitute teacher in my classroom for several days. She taught math, science, and small group reading. Before that, she served as a professional development student, twice a week, during the fall semester of 2021. Since day one, Miss Hager entered my third-grade classroom demonstrating a strong desire to become an effective teacher.

Miss Hager was always willing to meet expectations. She taught two units of math using the Everyday Math curriculum. She also taught a plants and animals science unit. She had to create this unit from scratch with only being given a list of the unit's lesson essential questions, vocabulary, study guide, and a copy of the test to work from. A special project that she had the students make was a shoebox diorama of a cell in which she created a rubric for the students to follow.

In Miss Hager's science unit, she experimented with the use of technology. She had the students use their iPads to complete lessons on the app called Formative. For math, she created PowerPoint presentations for the students to follow.

Miss Hager showed professionalism. She always arrived early. She was always receptive to new ideas. She never hesitated to ask questions about anything she did not understand and acted upon feedback. Miss Hager was well-liked by the children, faculty, and staff of our school. Her positive attitude and energetic personality will no doubt make her a valuable team player. She would be a positive addition to any school district.

Should you desire further information, I shall be happy to comply.

Sincerely,

Catherine M. Wiist
3rd Grade Teacher
